7. The supplier must submit valid up-to-date VATCC & ITCC along with bill before release of payment.
8. The BeMC, Berhampur reserves the right to cancel the Purchase order/ work order if the equipments supplied & installed fail to meet the specifications mentioned in the order.
9. Any loss/ damage during transit will be at the cost of the Firms.
10. Any dispute arising out of the deal shall be subjected to the jurisdiction of the court at Berhampur within the state of Odisha.

Executive Engineer

Signature of the Quotationer

11. The period of warranty of services/replacement, if any, shall be indicated clearly.
12. All the tenders received will bill be opened in the presence of the tenderers/their authorized representatives on the next working day at only.
13. The selected Tenderers shall be requires to supply the articles within 60 days of receipt of the Purchase order and installation, commissioning etc should be completed and handed over to BeMC, failing which the purchase order shall be liable to be cancelled.
14. Warranty of the complete equipment will be two years shall from date of hand over to Electrical maintenance section of BeMC.
15. If any excess payment made to the contractor is detected at any stage or is pointed by audit for recovery, then the same shall be recovered from the contractor.
16. The materials and work will be inspected by the Engineer-in-Charge or any other person duly authorized by him from time to time. It is the duty of the contractor to remove all rejected materials from the site within 24 hours at his risk and cost. If necessary, the contractor should produce test certificates of the finished products at his cost.
17. The rates shall be firm for the contract period. The contract will not be covered under price escalation clauses.
18. In case of failure of the successful bidder to comply with the agreement terms and conditions and any written instructions with respect to time of delivery, quality of materials, replacement or repair of materials/works within the stipulated period to the full satisfaction of the Engineer-in-Charge, then it will be treated as a breach of contract and hence the agreement will be liable for termination/rescind immediately and a formal Intimation to that effect by this office will be binding on the contractor. In such a situation, this office will be at liberty to adopt any policy of procedure so as to ensure completion of the work.

Executive Engineer

Signature of the Quotationer

19. The tenders should submit their offer in the tender papers only prescribed by this office.
20. Payment will be released in favors of the successful bidder after completion of the work subject to availability of funds and technical verification and satisfaction by Engineer-in-Charge. No claim or subsidiary claims in any manner for any reason whatsoever by the contractor will be acceptable to this office. Delay in execution of the work by the contractor on the ground of non-payment or delay in payment of earlier bills will be a just and sufficient example of violation of the condition of contract and in such situation action as deemed fit will follow. Running Account Bills will not be preferred ordinarily. In exceptional circumstances, the same may be considered. Photographs for the work at various stages (prior to execution, during and after execution) shall be taken by the contractor from various positions for the work as per instruction of JE/AE and should be submitted at least in quadruplicate before preparation of the bill for the work. Similarly, project description board should be erected/installed at suitable locations as per direction of Engineer-in-Charge. This office may consider payment to the contractor at minimum prevailing rates for photographs and the board.
21. The Engineer-in-Charge has authority to make any alteration or addition to the original technical specifications. The contractor has to obey the drawing, design and instructions that may be given to him as and when necessary during progress of the work. The contractor shall be bound to carry out the work in accordance with the instructions.
22. The contractor has to insure the labour and pay compensation to the workmen for any accident that may happen during execution.
23. The Performance Security Deposits (PSD) deducted from the bill(s) other than interim security deposits to release after one year (1 year) from the date of completion of the work provided final bill has been paid and defects, if any, rectified. This is applicable for item rate and L.S. contracts. The total EMD amount of 3% of the agreement value deposited before signing the agreement will be considered for release after L.F.S. Audit checking subject to no recovery detected by them. In case of recovery found due from the contractor as pointed out by the L.F.S. Audit or by any other authorities/agencies, then the same shall be made from the 3% EMD retained and balance amount (if found payable) will be released after that. In case the retained 3% EMD amount is not sufficient to make up the recovery amount as stated above, then action as appropriate will be taken to recover the same from the contractor from any amount found payable to him by this office or by resourcing to other procedures as deemed fit.
24. Copy of IT return, VAT Registration & PAN number, Copy of Authorized Dealership/ SSI unit.

Control Panel: -

The Control panel is manufactured with 16/18 gauge CRCA sheet and is powder coated for a weather- proof and long lasting finish. The control panel consists of microprocessor based DES 9 electronic controller, MCCB of suitable fail indication, current transformer, instrument fuses.

The DES 9 microprocessor electronic controller displays the following parameters:

- Voltage, Frequency, Current, Rpm, Cumulative Run Hours, Oil Pressure, Coolant Temperature & Charging Current (DC Amp Meter).

The DES 9 microprocessor electronic controller provides the following safety to the engine:

- Under & Over Voltage, Under & over Frequency, Under & Over Speed, Overload, Low Lube Oil Pressure, High Coolant Temperature & Emergency off.

Essential Accessories: -

- **Fuel Tank:** Sub Base Fuel tank (Draw in type) of MS sheet of adequate capacity.
- **Base Rail:** Base Rail of adequate size is provided
- **Batteries:** for electrical control circuit 1 no., 12 volts, 120AH battery for electrical starting of DG set.
